The Ascoli Venerable Marcucci Centre provides intensive inpatient rehabilitation and intensive and extensive outpatient admissions.

The clinic provides a neurological and orthopaedic rehabilitation service for patients with complex problems or in the first phase of rehabilitation following an acute event.

It operates in synergy with the city hospital and ensures further beds are available in the municipality for post-acute rehabilitation.

Equipped with 80 beds, this 4,600-square-metre facility has four floors with in-patient rooms, gyms, outpatient clinics and general services.

Outpatient centre

The Santo Stefano Outpatient Centre is in the area for outpatient rehabilitation and specialised activities. This is where, based on an initial functional diagnosis, we deliver complex multidisciplinary rehabilitation projects which, depending on the type and social and family context, take place on an outpatient, home or extramural basis, in presence and in telerehabilitation.

The Outpatient Centre has for years provided services for developmental pathologies with Multidisciplinary Unit for Developmental Age (UMEE) services throughout the child's time at school. The centre provides intensive inpatient neurological and orthopaedic rehabilitation for patients with complex problems and/or in the first phase of rehabilitation intervention following the acute event.

Treatment area:

- Neurological rehabilitation
- Orthopaedic rehabilitation

- Rehabilitation Physician
- Neuropsychologist and Psychologist
- Physiotherapist
- Speech therapist
- Social worker
- Nurses
- Health Care Worker

Access

Requests for admission can be made to the health office by fax to +39 0736 6689410 by:

- the Ascoli Piceno Rehabilitation Department for post-acute National Health (ASL) patients
- the family doctor
- a specialist doctor of the national health hospital or outpatient clinic

Requests must be made by filling in the relative form, which can be downloaded from the document area on this page, and are assessed by the centre's doctors. Those considered eligible are put on a special waiting list. The health office will then inform the patient or their family of the date of their admission onto the ward.

The centre ensures that patients are taken care of through scheduled admissions, carried out in full agreement with the National Health Service (SSN).

Acceptance for admission may be subject to an examination by the centre's medical staff carried out at the centre or in the patient's home, when necessary.

If you require further information for access, please call the health office on +39 0736 6891.
